Printed Pages – 3 Roll No. : .....

341110(41)

B. Pharmacy (First Semester) Examination, April-May 2019

(New Scheme)

(Pharmacy Branch)

PHARMACEUTICAL CHEMISTRY - II

(Organic Chemistry - I)

Time Allowed : Three hours

Maximum Marks : 70

Note : *Attempt any **five** question. All questions carry equal marks.*

1. Define the term hybridization. Explain Sp, Sp^2 and Sp^3 hybridization with suitable examples. 2+12=14

2. (a) Define electrophiles and neucleophiles. 2+6+6=14

(b) Explain substitution and addition reactions with suitable examples.

3. (a) Write general rules for IUPAC nomenclature of organic compounds. 10+4=14

(b) Explain homolytic and heterolytic bond fission.

4. Write short note on (any **two**) : 7×2=14

(a) Carbonium ion

(b) Atomic structure

(c) Geometrical isomerism

5. Define and classify isomerism. Discuss in detail optical isomerism with example. 6+8=14

6. Differentiate the followings : 5+4+5=14

(a) E1 and E2 reactions

(b) Relative and absolute configuration

(c) SN_1 and SN_2 reaction

7. Write notes on : 3½×4=14

(a) Recemisation and Resolution of enantiomers

(b) Bond length, bond angle, bond energy

(c) Nomenclature of E and Z system

(d) Conformational isomers of cyclohexane
