BE (6th Semester)

Examination, Nov-Dec., 2013

Branch : CSE

INTER NETWORKING WITH TCP/IP

Time Allowed : Three Hours

Maximum Marks : 80

Minimum Pass Marks : 28

Note : Attempt all questions. Part (a) is compulsory and write only correct option. In remaining part, attempt any two.

Q.1. (a) Which of the following is not a connecting device?

www.csvtuonline.com

www.csvtuonline.com

www.csvtuonline.com

(i) bridge (ii) transceiver (iii) router (iv) repeater. 2

(b) Explain port address, physical address and logical address in network. How this address play a role in communication? Explain with some network architecture. 7

(c) Explain WAN switching technologies in detail. 7

(d) Explain various connecting devices of network. 7

Q.2. (a) Supernetting perform on network : 2

(i) break large to small network.

(ii) combines several network into one large one

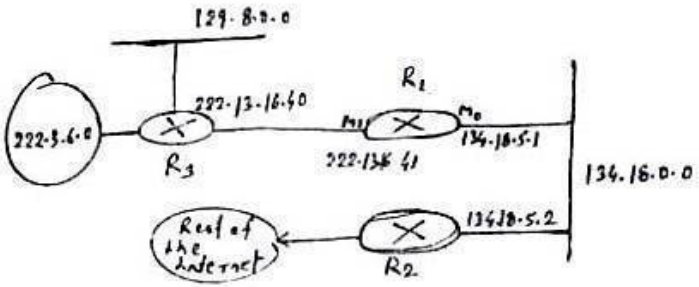
(iii) combine all network of class A, B, C.

(iv) none.

(b) An organization is granted the block 130.34.12.64/26. The organization needs to have four subnets. What are the subnet addresses and the range of addresses for each subnet. 7

(c) Make the routing table for router R1 for following figure : 7



32

(d) Explain Internet Group Management Protocol (IGMP) in detail. 7

Q.3. (a) OSPF is a 2

(i) Distance vector routing.

(ii) Link state routing.

(iii) Both.

(iv) None.

(b) Explain distance vector routing with example? 7

(c) Explain DVMRP in detail. 7

(d) Explain link state routing in detail. 7

32

Q.4. (a) IP is responsible for communication at the computer level : 2

(i) Process to process communication

(ii) Host-to-Host communication

(iii) Both.

(iv) None.

(b) How TCP control congestion on the Internet. 7

(c) Explain three-way handshaking for connection in TCP protocol. 7

(d) Explain flow control mechanism in TCP/IP with example. 7

Q.5. (a) A router connected to an ATM network uses the _____ layer. 2

(i) AAL and ATM

(ii) AAL and physical

(iii) ATM and physical

(iv) AAL, ATM and physical.

(b) Explain ATM layers with their header format. 7

(c) Explain the cells routing in ATM. 7

(d) Explain permanent virtual circuit (PVC) and switched virtual circuit (SVC) in detail. 7
