233311(22)

Diploma in Engg. (Third Semester) Examination, Nov.-Dec., 2015

(Old Scheme)

(IT Engg. Branch)

COMPUTER ARCHITECTURE

Time Allowed : Three hours

Maximum Marks : 100

Minimum Pass Marks : 35

Note : *All questions are compulsory. Attempt any two questions from (a), (b) and (c) from each question.*

1. Explain 8085 Architectural Block diagram. 10

Or

What is micro operation? Explain various logic micro-operation.

2. What is memory address? Explain different types of addrssing modes. 10

3. Explain following instruction : 10

(i) LDA

(ii) STA

(iii) ISZ

(iv) BSA

(v) BUN

Or

What is Instruction Cycle? Explain data fetch and decode operation.

4. Explain DMA Controller and DMA Transformer. 10

5. Write short notes on following : 10

(i) Machine language

(ii) Assembly language

(iii) Subroutines

6. Explain Binary adder and subtraction. 10

Or

Nov - Dec 15

[3]

Explain incrementon and decrementon.

7. Explain 8086 Architectural Block diagram. 10

Or

Compare Isolated V/S memory mapped I/O. 10

8. What is Memory? Explain their types. 10

9. Explain Address Mapping using pages, pagetable and page replacement. 10

Or

Explain Associative Mapping. 10

10. What is Stack and Register Organization? 10

Or

Explain following instruction : (any four) 10

(i) Data Transfer

(ii) Data Manipulation

(iii) Program Control

(iv) RISC

(v) CISC
